POSITIVELY

The Last Two Nights!

FRIDAY & WEDNESDAY EVENS.

March 26th and 27th.

The Grand Tableaux

OF THE

APOCALYPSE

Received with unanimous favor by all classes during its representations last week, and pronounced by all to be the most sublime and startling series of Tableaux ever presented to the citizens of St. John,

SHOWING WHAT ST. JOHN SAW

When a Door in Heaven was Opened,

And ending with the Visions of the

DAY OF JUDGMENT AND THE NEW JERUSALEM!

This Extraordinary Exhibition most faithfully sustains the opinions of Rev. Albert Barnes, author of Barnes' Notes on the Book of Revelation: that these Visions would make the most startling Paintings ever produced.

For Eighteen Hundred Years the Book of Revelations, and the visions which St. John saw upon the Isle of Patmos on the Lord's day, have excited wonder and admiration—and now, in the Nineteenth century, the bold conceptions and ready pencils of Dore, Martin, Danby, and other Artists, finding in these Divine writings, marvellous and grand subjects for their genius have presented them to the Christian and the world these marvellous apocalypses which speak of time and eternity.

The series of Tableaux lately added, comprising new designs of the

GRAND MILTONIAN TABLEAUX

OF

PARADISE LOST

surpass all previous representations of this grand subject, and the whole combined form an entertainment unparalelled in beauty, interest and attraction.

A NEW & NOVEL FEATURE

introduced each evening by the Proprietor, as an encouragement for the appreciation of the Arts, and as a means of advertising the entertainment, meets with universal satisfaction in all communities.
